## **NEW BUSINESS ITEM**

**Subject: Scarborough Subway Extension**

**Submitted by: Chair Josh Colle**

### **SUMMARY:**

At its meeting of October 8, 2013, City Council confirmed support for an extension of Line 2 (Bloor-Danforth Subway) to Scarborough Centre and Sheppard Avenue, along McCowan Road, subject to approval through an Environmental Assessment.

At its meeting of January 28, 2016, City Executive received a Scarborough Transit Planning Update from City Planning, after which City Executive directed City Planning, in collaboration with the TTC, to continue technical work for the recommended Scarborough transit network. Integral to the proposed network is an extension of Line 2 that focusses on serving Scarborough Centre, via a McCowan Road alignment.

### **RECOMMENDATIONS:**

Request that staff report back to the Board at its meeting of March 23, 2016, with a report that outlines the work TTC staff will be performing in support of revising the scope for the Scarborough Subway Extension.
